Here is the letter to TCEQ announcing our plan to partially reconsider the SIP call and memo from the RA to Bill Wehrum regarding consistency.

These are the latest drafts. There is a possibility that Clint Woods will have comments but I think we should go ahead and start concurrence. I am going to get sharepoint routing started. These are advanced copies so you can be ready to keep them moving.

I think we should try to have them ready for RA signature by 12:00. So we can get the memo to HQs for Bill's concurrence in plenty of time.

Thanks in advance for moving this quickly.

Guy – Here's the best we have at this point. These docs reflect OGC review through their management. If Clint has additional comments, we will need to update these to reflect them, but these could very well reflect the final versions from HQ, so I'd recommend you start working them through your chain. I will let you know once we hear from Clint either way.

The one thing we did hear from Clint is that Jon Niermann is now the chairman of TCEQ, so I changed Shaw to Niermann in the addressee block and introduction. I could not think of a succinct way of explaining that Shaw submitted the petition, given the way the rest of the letter is written, but feel free to make changes if you think necessary.

Thanks,
Megan

Guy –

Doesn't look like anyone responded. DOJ wants to file by 5, so it should be complete 4:30 and the sequence would be:

- R6 sends the concurrence memo
- OAR signs the concurrence memo & sends back to R6
- R6 signs the letter.

What is the deadline to get signatures on the letter and memo in order to meet the DOJ deadline? In thinking about that it seems like we need to factor in time for OAR concurrence on the memo.

We should probably set up a timeline. We will need at least a couple of hours here to run the letter and memo through an abbreviated concurrence.
